Subject: Request for Class II Permissive Change
FCC ID: 2AB94-A291000001
Original grant date: 06/30/2014
Applicant: SPX Genfare

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: 2AB94-A291000001, originally granted on 06/30/2014.

The original grant is for full modular approval. However, the purpose of this change is to:

- 1) Add two different antennas that were not tested and certified under the original grant and are not of the same type or gain as the antennas used in the original grant.
- 2) Submit SAR test exclusion calculations that will allow the antenna(s) of this transmitter to be installed to provide a minimum separation distance of 0.8mm. This is less than the distance specified in the original grant (20 cm from all persons at all times).
- 3) Change the range of operation from thirteen channels to eleven channels.

Thank you for your time and effort.

Respectfully,

Name: Joseph Hessel
Title: Electrical Engineer
On behalf of SPX Genfare

Phone: (847) 593-8855 Ext. 412
